### **VOLUNTARY ANNOUNCEMENT PROVISION OF TECHNICAL SERVICES FOR BELT AND ROAD FORUM**

This announcement is made by Century Sage Scientific Holdings Limited (the “**Company**”, together with its subsidiaries, the “**Group**”) as a voluntary announcement to provide the latest information of the Group to the public.

Following successful provision of technical services by the Group at the G20 Leaders Summit in September 2016, the board of directors of the Company (the “**Board**”) is pleased to announce that once again, the Group had been participating in another remarkable international event, being the Belt and Road Forum for International Cooperation (“一帶一路”國際合作高峰論壇) (the “**Forum**”) held in Beijing during the period from 14 to 15 May 2017. Beijing Century Sage Scientific System and Technology Company Limited\* (北京世紀睿科系統技術有限公司) (“**CSS (Beijing)**”), a wholly-owned subsidiary of the Company, was responsible for providing core technical services to enable the smooth running and broadcasting of the event by media broadcasters from home and abroad to the public.

The “One Belt and One Road” initiative has been proposed by President Xi Jinping since 2013. The Forum is regarded as the most high-end level summit in relation to the initiative since then and one of the most high-profile national diplomatic activities in 2017. Large numbers of heads of state, government leaders and heads of international organisations attended the Forum.

CSS (Beijing) was mainly responsible for providing (i) public signal installation services for the International Broadcast Centre (the “**IBC**”) of the Forum; (ii) layout design services for on-site system equipment; and (iii) the IBC master control system set-up and equipment installation services for the Forum. The technical services provided by CSS (Beijing) are essential and of high importance to the Forum to enable the public signals being transmitted and received by media broadcasters from home and abroad so as to ensure the event being broadcast to the public smoothly and simultaneously.

With the rapid development and the growing influence of China among countries in the world, it is expected that more significant and influential events will be held in China in the near future. Since the establishment of CSS (Beijing) in 2007, it has been participating in several major national and international events, including the 2008 Olympic Games, the celebration events of the 60th Anniversary of China, the China Victory Day Parade and the G20 Leaders Summit. In view of the growing number of high profile events held in China in recent years, the Directors are confident that more business cooperation opportunities will be obtained by the Group in the near future thereby bringing significant positive returns to the Group.

By order of the Board  
**Century Sage Scientific Holdings Limited**  
**Lo Chi Sum**  
*Chairman*

Hong Kong, 31 May 2017
